

Welcome!

Hey! My name is Cal Athmann (they/them) and I am your RA for the 2024-2025 school year! I am looking forward to meeting all of you and having a fun year.

I am majoring in Biochemistry, I work for the school newspaper, the Oracle, and I love attending every campus event that I possibly can. Some of my hobbies include drawing, crocheting, painting, reading, writing, and exploring nature. I also have fun watching movies and TV shows as well as listening to many genres of music (and I would LOVE to hear what movies, TV shows, and music you like!) I find animals to be very adorable so if you have pets you are to show me pictures!! (not really but I would love to see them). This is my second semester as an RA and I am very passionate about making your experience on this floor the best it can be!

It is very important to stay in touch with your roommate leading up to move-in and while living together! Good communication
